

## **APLS THERMAL GUARD MYLAR**

**From: \$225.38**

Maximum Thermal Protection

---

**SKU: 59-200**

## **PRODUCT DESCRIPTION**

APLS Thermal Guard Mylar is a portable and disposable absorbent litter that provides maximum thermal protection during emergency transport. The APLS Thermal Guard Mylar provides an integrated system for improved patient care. The highly absorbent cellulose core wicks fluids away from the patient. The Mylar-lined bag and detachable hood retain body heat and the treated nylon backing protects against wind and moisture.

APLS Thermal Guard Mylar can retain 1.7 liters of bodily fluid while safely supporting up to 350 pounds. Eight close-able access points make it easier for medical personnel to better treat the patient at point of injury.

APLS Thermal Guard Mylar is also available in a tactical configuration with "skid plate" material on the bottom for extra durability when dragged.

## **PRODUCT INFO**

### **Capabilities**

- **SUPPORT:** 320 – 350 lbs. wet or dry
- **ACCESS:** enables treatment at point of injury
- **EASY:** Eight reinforced straps allow for carry

### **Product Attributes**

- Leak proof nylon backing for additional strength while dragging
- Detachable, lined hood

- Lightweight, rugged, strong
- Compressed vacuum packed

## **Clinical Benefits**

- Contains up to 1.7 liters of blood and bodily fluid
- Built-in thermal properties for warmth during transport
- Pockets for medical documents and personal effects

## **SPECIFICATIONS**

- NSN: 6530-01-620-2668 (case of 10)
- PN: 59-200
- Not made with natural rubber latex / Single patient use
- Target Absorbency (H<sub>2</sub>O): 1,500 - 1,850 grams (Target=1,700 grams, or 1.7 liters)
- Pad Thickness: 0.2250"(0.57 cm)
- Dimensions-
  - Packaged: 22" x 76"(55.88 cm x 193.04 cm)
    - Weight: 2.9 lbs. Dry Weight (1.32 kg)
    - Weight Capacity: 320 - 350 lbs. (145.15 - 158.76 Kg)
- Made in USA
