PRODUCT DESCRIPTION

Custom designed bleeding control solution that meets the requirements set forth in House Bill No. 496 Texas legislation which mandates bleeding control stations in schools. Our Bleeding Control Kits provide initial first responders an easy-to-use solution to treat the 5 leading causes of preventable death following an active shooter situation in schools, public buildings and populated public venues. These custom kits contain color-coded MARCH™ Medical Gear with simple icon identifiers packaged in a variety of configurations and storage options. The Bleeding Control Kit's compact design easily fits inside a desk drawer, treating up to 1-3 patients, while the Carry Set contains 4 Kits and the Wall Mount Station contains 6 kits. A MARCH™ Quick Reference Guide completes each kit, providing easy to understand instructions for use.
