

CELOX™ -A

From: \$15.46

High Speed Application

SKU: 30-235

NSN: 6510-01-623-9943 CS/50 |

PRODUCT DESCRIPTION

Narrow penetrating injuries such as bullet or knife wounds are very difficult to treat and can be lethal. Celox-A is a unique applicator delivery system with 6g of Celox™ granules designed to treat small track wounds, directly at the source of bleeding. This traumatic wound treatment stops moderate-to-severe bleeding in just seconds. Its low-profile packaging enables Celox-A to be easily integrated into existing First Aid Kits. Celox-A follows the MARCH mnemonic in a color-coded, trauma treatment system, distinctly packaged with icon identifiers to treat the five leading causes of preventable death following traumatic injury.

PRODUCT INFO

- Promotes rapid and effective control of moderate to severe bleeding
- High speed applicator
- Applies through strong blood flows
- Treatment of narrow track wounds
- Works in hypothermic conditions
- Clots heparinized blood
- Lightweight
- Low Cube
