

CONTROL CRIC™ TRAINER SUSTAINMENT SET

\$3,310.56

Affordable Training tools for a Surgical Airway.

SKU: 13-500S

NSN: NSN: 6910-01-672-9292 |

PRODUCT DESCRIPTION

The Control-Cric Trainer Sustainment Set is designed to provide 100 training evolutions of the Control-Cric Trainer, making it ideal for installation level training and centralized skills evaluation events. The Sustainment Set is comprised of bulk components making this an extremely cost effective, per use training tool. The density of components is based on consumption rates and eliminates waste without diminishing training value.

The Cric-Key™ is the CoTCCC named and preferred surgical cricothyrotomy device. The Control-Cric™ Trainer is the only commercially available training system that contains the Cric-Key™ and Cric-Knife™.

The Control-Cric™ Trainer Sustainment Set contains:

- Cric-Key™ Trainer (20)
- Cric-Knife™ Trainer (20)
- Inflation Syringe (2)
- Securing Strap (2)
- Removal Wedge (2)
- Instructions For Use (2)
- Surgical Lubricant (144)
