

**HAWK™ RESPONDER CARRIER SET****\$272.00****SKU: 87-515****PRODUCT DESCRIPTION**

The HAWK Responder Carrier is an advanced hypothermia management treatment set. It is compact, easily transportable, and accessible during stressful situations. The HAWK Responder Carrier is intended for initial responders as a means of immediate treatment following traumatic injury. This kit addresses the purple hypothermia icon within MARCH™ medical gear's color-coded treatment system and targets one of the five leading causes of preventable death following trauma. The nylon pouch can be carried by the adjustable shoulder strap or attach to MOLLE. The HAWK Responder Carrier is also offered in two color variations to accommodate the preferences of any department.
