PRODUCT DESCRIPTION

The MARCH™ IFAK Resupply bundle is intended to be used as resupply for the US Army standard IFAK or similar commercial applications. Using the combat-proven practice of kit organization and standardization, the MARCH™ IFAK Resupply is designed to be used under the most adverse conditions. It uses MARCH™ medical gear in a color-coded trauma treatment system to treat the five leading causes of preventable death on the battlefield. It comes with quick reference cards to complete the system.
