

MOJO® INDIVIDUAL PUBLIC ACCESS KIT

\$28.00

Initial solution

SKU: 87-220

PRODUCT DESCRIPTION

The Individual Public Access Kit provides for a quick, easy to use solution for initial responders during stressful situations following trauma. This Public Access Kit uses MARCH™ medical gear, allowing for simplified training that visually cues the initial responder to the right product. It is a user-friendly, trauma treatment system with color-coded packaging for easy identification complete with a MARCH Quick Reference Guide. The Individual Public Access Kit's convenient lightweight design allows it to easily be kept in a purse, briefcase or desk drawer.
