Info:: Unfortunately, due to supply chain challenges, all kits that contain the iTClamp will ship without it. This product will be shipped to you once available at no additional cost. Please contact us directly at 855-428-6074 opt #2 with any questions. |

PRODUCT DESCRIPTION

Developed according to the Ranger First Responder Program, the Mojo RFR Set comes fully stocked providing the smallest cube with massive capability. The trio combination of the Mojo Massive Hemorrhage Set, Mojo Airway & Respiration Set, and Mojo Circulation Set eliminate preventable death by enabling the most advanced interventions as close to the point of injury as possible. It uses MARCH™ medical gear in a color-coded trauma treatment system with icon identifiers to treat the five leading causes of preventable death on the battlefield. This fully stocked Set comes in Multicam and attaches to MOLLE.
