

MOJO® SHELTER IN PLACE KIT

From: \$419.00

Shelter prepared

SKU: 87-300-01

PRODUCT DESCRIPTION

The Mojo® Shelter in Place Kit contains three vacuum sealed trauma kits including everything needed to treat the five leading causes of preventable death in traumatic injuries. This kit will allow a small group to shelter in place and treat traumatic injuries without exposing them to additional threats.

Using only MARCH™ medical gear allows for simplified training that visually cues the user to the right product, the right intervention at the right time. Includes Celox™ RAPID hemostatic gauze, which is clinically effective in the presence of blood thinners¹; and the versatile TMT Tourniquet which accommodates varying limb circumferences from Minimum 5 3/4" to Maximum 35 1/4".
