PRODUCT DESCRIPTION

Handwashing is the single most important means of preventing the spread of infection. When handwashing is not an option, the use of hand sanitizer is your next best choice. Water-Jel Instant Hand Sanitizer kills 99.9% of germs - without water. With Vitamin E and Aloe, this antiseptic cleans, refreshes and kills germs. It is gentle on hands, even after repeated use. Instant Hand Sanitizer is the solution to fighting germs and risk of contamination. These easy to use, flip-top dispenser bottles and pump top option come in a variety of sizes to accommodate your needs.
